## About

### Surjit Kaur

(Managing Director)

We started our journey R&D laboratory in 2013

## Our services

for Testing of food, feed, soil water, material followed, with a core determination of giving back to the environment and saving soil we launched a range of nano organic fertilizers

With innovative strategies and advanced products customized to local needs, we help farmers protect as well as nurture the food being grown

We address every stage of the lifecycle of crops and plants and aim to outperform the crop protection chemistry market by focusing on high-growth, high-value and high-differentiation segments through innovative products and well-designed treatment plans. enhances development of the crop life cycle by inducing plant biological efficiency during each of the five primary growth stages and by helping plants to better cope with a variety of stress and growth-limiting factors. our main aim to increase yield and nutrition

## Our Services

TESTING	CONSULTANCY	OTHERS
Water testing	Farm Consultancy	Material Safety Data Sheet (MSDS)
Nutrition Value of Food	permaculture Consultancy	Safety data sheet (SDS)
Microbial in Food		Non - Hazardous certificate
Red Sandalwood		Non - DG certificate
Shelf Life of Food		
Soil Testing		
Adulteration of Food		
Fatty Acid Testing in Food		

## Our Products

FERTILIZERS	NUTRIENTS	BIO STIMULANTS	INSECTICIDES
INSECTICIDES	Micronutrient mixture	Cytokine	Kick
Bio NPK fertilizer	Zinc	Espresso	Attack
Grow rich series of NPK 19, 52, 61	Boron Profood	Killer	Rakshak
Biovitaz (Seaweed)			Thunder
Rise up			Shoot
Formula 1- Bloom			Beats
Grow more			knock out
Spreader			

## Clients testimonials

### Ravindra Srinivas

Quick response requires less follow up and the report is more elaborative which covered all food safety aspects. The MSDS report from zeal biological helped us to handle the logistic issue to ship out our milk and yoghurt based drink to Middle East

### Martha Raghavendra

As of my best knowledge and experience with this company, they provide premium quality organic fertilizers, bio pesticides, bio fertilizers. Those products are gone through intensive research and field trials, before they are available to end consumers, as the company visionary is towards sustainable agriculture. They are making game-changing revolution in this organic agriculture, by their unique eco-friendly formulation which works effectively on crops with minimal effects on surrounding environment. Over all it has best customer support and consultancy services , they provide farming tips to farmers. It's an amazing company.

### Aditya Narayan

Very helpful staff well versed in all biological, natural preparations needed for all kinds of crops. They have a wide repertoire of products to meet all agricultural needs. Mrs. Kaur and one of the specialists, Ms.Sushrutha are very patient and helpful, along with their BDM,Mr.Vinay Kumar, he travels wherever needed and provides the products

### Budaraju Dhananjay

Zeal Biologicals is a place where hard-core research activity is done from testing water, soil samples to growing microorganisms in the lab. The lab is well equipped with all type of research instruments. I have been a part of this lab for a couple of years to finish my project. It is a very good place to research. Please do visit.
